Professional Summary

Ambitious Computer Science and AI student with a strong interest in the automotive industry. Reliable and hardworking, with experience working both independently and in teams. Eager to apply technical skills and innovative thinking to contribute to impactful solutions in international industrial environments.

EDUCATION

Sadat Academy for Management Science

Sept. 2024 – Present

Bachelor Degree in Computer Science

Cairo, Egypt

- **Coursework:** Data Structures, Algorithms, Databases, Computer Systems, Software Engineering

EXPERIENCE

Kemet Technologies

September 2025 – Present

Software Tester

Cairo, Egypt

- * Performed manual testing for **Foodie Flow**, a restaurant management system used to manage orders, menus, and operations
- * Identified, documented, and tracked bugs using structured reports to assist developers in resolving issues
- * Collaborated with developers to reproduce issues and validate fixes before release
- * Tested UI flows to ensure proper functionality across different user actions and scenarios

Kemet Technologies

February 2025 – June 2025

Web Scraping Automation

Cairo, Egypt

- * Developed **Python-based web scrapers** to extract university course catalog data including course codes, titles, credit hours, and descriptions
- * Automated data collection from multiple university catalog systems using **Scrapy** and **Selenium**
- * Parsed HTML pages and structured extracted data into clean datasets for processing and analysis
- * Built reusable scraping scripts capable of handling dynamic pages and varying site structures

PROJECTS

Glow Aroma

- * Designed and developed a responsive e-commerce website for a local candle business using **React**, **Node.js**, and **CSS**
- * Implemented product catalog pages, responsive UI, and backend functionality to handle customer inquiries and orders
- * **GitHub:** <https://github.com/Bellogello/Glow-Aroma>

Fencing Match Scoring Website

- * Built a web-based scoring system for **fencing matches**, allowing score tracking and match control
- * Implemented match logic and UI using **JavaScript**, **HTML**, and **CSS**
- * **GitHub:** <https://github.com/Bellogello/fencing-pool-app>

SKILLS

Programming : Python, C++, SQL

Web Developments : JavaScript (React.js), HTML/CSS

Tools : Figma, Notion, Jira, GitHub, OBS, Blender, Microsoft Office
